

Dalycrrete Are Quality Suppliers of Concrete Construction to the Western Australian State and Local Governments, Housing, Marine, Civil, Commercial, Mining and Utilities Industries

A Solid Foundation You Can Trust

Welcome to Dalycrete

Quality and Excellence are our goals and achievement

Company Profile

From its inception as a family-owned and operated Company in 1998, Dalycrete has grown to become a major supplier of concrete construction in Western Australia. From a modest beginning, our diverse portfolio of customers covers a range of industries ranging from domestic installations to State and Local Governments.

In an ever-changing industry, our knowledge of the product, experience and skills are the criteria by which we determine our confidence in being able to provide a quality service at the best possible price.

We are able to provide the services expected from a large national company with the personalised attention you only receive from a principal-owned and managed business.

Our success can be measured by our long-term relationships with key clients and repeat business - a direct result of our commitment to the health and safety of our workers, the environment, and quality workmanship and product for our customers.

Overview

We are committed to conducting a business based on experience and current technology, and to keep up with global developments and training so that we can provide our customers with leading-edge services and products.

Our Philosophy

- ❖ We are client-focussed, operating with total dedication to integrity, openness and honesty.

- ❖ Every Dalycrete employee is committed to the quality and reliability of our products and services.
- ❖ We fully embrace and commit to the health, safety and wellbeing of our workers.
- ❖ We have respect and caring for our native flora and fauna, and are conscious of our environment at all times.

Our Mission

We will:

- ❖ Conduct business ethically, honestly and with diligence at all times.
- ❖ Provide our customers with a quality product and service.
- ❖ Not take short-cuts or sacrifice the quality of our products and services to make a profit at the client's expense.
- ❖ Create sustainable and profitable growth in all facets of our business.

Our Strategy

- ❖ Provide our customers with a service and product that meets and exceeds their expectations. This is achieved by using first-rate product, sound business practice, qualified and experience tradespeople, all led by an expert Management Team.
- ❖ Meet with potential clients, determine their needs, and provide advice on the best method, materials and workmanship to achieve the product they require at the best possible price.
- ❖ Deliver what is promised, on time, every time

Our Strengths

We:

- ❖ are experts in our trade, with first-class results every time from qualified tradespeople
- ❖ have a “can do” attitude;
- ❖ consider no job is too large or too small;
- ❖ work to recognised Industry Standards
- ❖ are financially stable;
- ❖ are current with all Legislation and Standards;
- ❖ have an excellent safety culture.

Our Clients

For over 15 years our excellent work performance and professionalism has enabled us to forge an effective working relationship with a multitude of clients. Two of our projects at Newcrest Gold Mine facilitated an expansion

of our work portfolio to include contracting for other Departments of NML departments.

We are currently the contractor of principle for the SAOC Building Civil Works.

Services Overview

We have a vast wealth of experience within Dalycrete, with an extensive involvement in the concrete industry spanning many years.

Our core business encompasses all types of concrete construction including:

- ❖ formwork,
- ❖ concrete pouring and finishing,
- ❖ steel reinforcing and ❖ earthworks

within the domestic, commercial, industrial, mining and civil markets.

Our permanent Team of steel fabricators, machine operators, dogmen and crane drivers has a combined, direct experience in the concrete industry of over 250 years in projects ranging from houses, schools, architectural concrete and pre-cast walls, through to large industrial pours - factories, service stations and apartment blocks.

All our employees are mobilised, inducted and worksite-ready. Similarly our plant and equipment is ready for mobilisation, transport and storage on site.

Pricing

Our prices are transparent, in line with current market trends, and competitive. We will quote on any job regardless of size, and guarantee a quality result.

Community involvement

Dalycrete is proud to support our community. Our base materials are sourced from local suppliers, keeping West Australians in employment, and supporting and boosting our communal economy.

Why are we the Concreting Company of Choice?

The concrete industry is growing at a phenomenal rate, with high demand for our services due to ever-expanding infrastructure, residential and business needs.

We have excellent customer relationships. Our clients have complete confidence that Dalycrete can and does provide a quality result at a good price.

Regardless of the size or scope of work to be undertaken, our clients know they will be treated with honesty and respect.
