

ENVIRONMENTAL POLICY

Policy Statement

We recognise that environmental conservation is a significant issue in our community, and the importance of maintaining a high standard of environmental care when conducting our operations.

We are committed to ensuring our operations achieve or exceed a level of environmental management and performance aligned to National and International Standards.

Dalycrete will:

- Conduct our operations in compliance with applicable Laws, Legislation, Regulations, Standards and Codes of Practice to prevent or minimise any adverse impact on the environment.
- Treat native fauna and flora with dignity and respect.
- Minimise pollution and contribute to a sustainable future by conducting our operations in a manner that reaches a balance between environmental, technical, economic and social objectives.
- Provide, encourage and support environmental and sustainability training and awareness education to employees, particularly those charged with environmental responsibilities.
- Work with our Client to conduct risk assessments of the impact of our operations if required.
- Conserve resources, minimise waste, and seek continual improvement of processes to protect the environment.
- Report any environmental incidents / hazards to the appropriate regulatory body.

Personal responsibility:

- All employees will ensure work practices comply with our Policy and Legislative obligations, operating in an environmentally responsible manner.
- All employees will recognise they are accountable and have a major role to play in the preservation of the environment.

Ryan Daly
Director
Dalycrete
